This picture report is focusing on what has been realized in the Action Plans 2019 and 2020.

The classroom blocks of Action Plan 2018 and Action Plan 2019 (P218-0323) with 4 tanks of 12.000 litres each, filled by rainwater from the roofs and by the community borehole if rains are insufficient.

So, there is water the whole year around.

In 2021 the taps and access point were renovated.

The Nursery block (3 classrooms) and higher up the Library and Administration constructed in 2019 (Action Plan 2019 or P2018-0323)

The compound of Kamuli Childcare Nursery & Primary School is very uneven, which caused the need to construct many steps, ramps, and retainer walls. Those were not budgeted and were cause of severe overruns.

View from the Dining Hall to the sports field and the Boys Dormitory.

The school compound needs still to be organized and cleaned. The make-shift hut in the middle will be demolished.

Left the Boys and right the Girls Dormitory
